

Day Bed Double Loft Plan

Bristol Shores

The Day Bed Double Loft Plan

is perfect for those with storage and extra sleeping space in mind. The two additional lofts allow children a place all their own, with outlets for TVs or video games on rainy days, as well as a space for bulky skiboats, snowboards, or other sizable gear. Like the Front Day Bed model, the living room easily converts into a second bedroom with its privacy sliding panel and pull out couches. Your fully furnished model features an interior decor that coordinates everything from your furniture to your curtains to the pillow shams in your bedroom. With the table, chairs, fully applianced kitchen, covered deck, and three season room, all you need is a suitcase to enjoy your vacation getaway. This model is also available in a single loft style and with a fireplace in the living room.
