

# Double Loft Plan

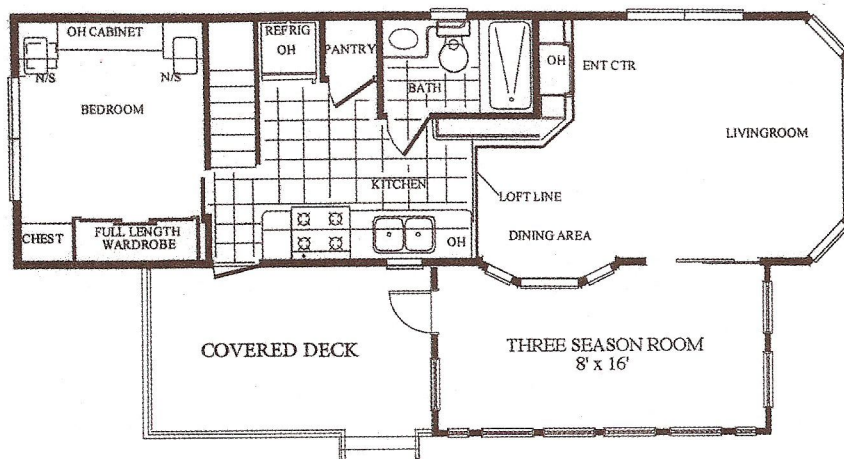

Bristol Shores

## The Double Loft Plan

has two lofts that allow you to practically double the size of your park model, so it is ideal for those with a need for extra storage and sleeping space. Skis, snowboards, boots, and other gear can be neatly stored above, while children have a floor all their own. Cable outlets in each loft provide entertainment for nights or rainy days, and the center loft overlooks the living room so little ones are only a glance away. The spacious kitchen features a pantry and plenty of working space, while the large bathroom has room for a tub. The living room is bright and open and looks up to the center loft's hardwood banister and railings. Just through the living room slider is your 8 x 16 three season room, for even more living space. Your fully furnished model features an interior decor that coordinates everything from your furniture to your curtains to the pillow shams in your bedroom. Like all of our park models, the kitchen is fully appliance, leaving you with no responsibilities other than to pack a bag, head to the beach, and enjoy your vacation getaway.
