

Island Dinette Plan

The Island Dinette Plan

...offers the most open and flexible living space at Bristol Shore. A high island in the open kitchen seats four comfortably and provides storage space below, while the hutch and kitchen cabinets allow more counter and cabinet space. The six windowed dormer adds height and sunlight to your living space, and the spacious living room with corner entertainment center provides the perfect setting for relaxing with friends and family. A three season porch and covered deck allow for even more living or sleeping space. Your fully furnished model features an interior decor that coordinates everything from your furniture to your curtains to the pillow shams in your bedroom. Like all of our park models, the kitchen is fully applianced, leaving you with no responsibilities other than to pack a bag, head to the beach, and enjoy your vacation getaway.
